CAREER OBJECTIVE

Finance & Mathematics double-degree with hands-on experience as a Financial Analysis Intern at Vinatex International JSC. Demonstrated capability in financial reporting, period-close support, variance analysis, leveraging MS Word, Excel, SQL and R to deliver accurate, stakeholder-ready reporting packs. Strong academic foundation in corporate finance, mathematical modeling, and data analytics, with a disciplined approach to optimisation and decision support grounded in operations research methods.

EDUCATION

Bachelor of Commerce (Finance) & Bachelor of Science (Mathematics) Curtin University	2024 – 2027
Diploma of English for Academic Purposes Curtin Singapore	2023

KEY SKILLS

- **Financial modelling:** Built discounted-cash-flow and Monte Carlo Value-at-Risk models in Python, applied to ASX-listed equities.
- **Technical:** Python (NumPy, Pandas), R / RMarkdown, SQL, advanced Excel, LaTeX, HTML; optimisation with Pyomo, Gurobi and OR-Tools.
- **Analysis:** Applied linear and stochastic optimisation to portfolio-allocation problems across coursework projects; 1600+ elo of Rapid Chess on Chess.com
- **Professional:** Teamwork, attention to detail, time management, customer service.

RELEVANT EXPERIENCE AND PROJECTS

Internship VINATEX INTERNATIONAL JSC, Hanoi	10/2024 – 2/2025
• Supported month-end financial reporting • Delivered ratio analysis (liquidity, profitability, efficiency, leverage) and trend reads to inform management reviews and KPI tracking. • Standardized calculation templates in Excel and documented methods in Word.	
Optimal Stock Portfolio Curtin University	Sem 1 - 2025
• Built a reproducible R/RMarkdown workflow to ingest, clean, and analyze assigned equities; calculated returns, volatility, beta, and risk-adjusted metrics • Applied mean-variance optimization to recommend a constrained two-stock portfolio; validated results with scenario and sensitivity checks.	

Salary Regression & Pay-Equity Analysis

Sem 2 - 2025

Curtin University

- Analysed a university academic-staff salary dataset to assess potential sex-based pay disparities, performing exploratory analysis, outlier detection, and variable transformations in R.
- Built and compared simple and multiple linear regression (SLR/MLR) models, applying residual diagnostics and a predictive criterion to select the best-fitting model.

Car Finance Investigation – Financial Modelling & Gen-AI Critique

Sem 1 - 2026

Curtin University

- Calculated the loan comparison rate by incorporating application fees, account closure fees, repayment cashflows, and effective borrowing costs beyond the advertised APR.
- Evaluated a Gen-AI-generated car loan model against the group's Excel model, identifying calculation limitations, modelling assumptions, and inconsistencies in repayment outputs.
- Refined Gen-AI prompts and outputs to improve the accuracy, clarity, and flexibility of loan repayment and amortisation modelling

Exchange Rate Hedging Case Study

Sem 1 - 2026

Curtin University

- Calculated 12-month forward exchange rates for USD against AUD and CAD using interest rate parity to assess foreign exchange exposure.
- Analysed the expected USD discount/premium and evaluated the impact of currency movements on import and export transactions.
- Compared forward contracts, money market hedges, and options to determine the most cost-effective hedging strategy for AUD import payments and CAD export receipts.
- Valued an existing AUD forward hedge position after four months using updated spot exchange rates and risk-free rate assumptions.

EMPLOYMENT HISTORY

Front of House

02/2025 – 06/2025

Sik Geak Korean BBQ, Perth

- Delivered efficient, high-quality customer service in fast-paced, high-pressure environments while meeting quality and satisfaction standards.
- Followed operational procedures and food-safety guidelines to maintain compliance and workplace safety.

Front of House

01/2023 – 09/2023

Hanjip Korean Grill House, Singapore

- Worked with kitchen and service teams to manage order flow, reduce delays, and maintain a positive customer experience.
- Delivered front-of-house service in a fast-paced hospitality environment, including greeting guests, taking orders, and supporting smooth daily operations.

REFEREES
