PROFESSIONAL SUMMARY

Third-year Finance and Mathematics student at Curtin University with practical experience in financial analysis and reporting gained as an intern at Vinatex International JSC. Skilled in financial statement analysis, forecasting, and quantitative modelling using Microsoft Excel, R and Python, with a disciplined, detail-oriented approach grounded in a strong mathematical foundation. Seeking an internship where strong analytical, modelling, and reporting skills add immediate value.

KEY SKILLS

Technical: Microsoft Excel (advanced), R / RMarkdown, Python, SQL, HTML, financial modelling, Microsoft Word, PowerPoint

Finance & Analytics: Financial statement analysis, ratio analysis (liquidity, profitability, efficiency, leverage), forecasting, variance analysis, mean-variance portfolio optimisation, KPI tracking

Mathematical & Quantitative: Calculus, linear algebra, probability and statistics, mathematical modelling, regression modelling (SLR/MLR), model diagnostics and selection

Professional: Attention to detail, time management, teamwork

EDUCATION

Bachelor of Finance and Mathematics — Curtin University, Perth

2024 – Present

Expected graduation: 2027 |

Diploma of English for Academic Purposes — Curtin Singapore

2023

PROFESSIONAL EXPERIENCE

Financial Analysis Intern — Vinatex International JSC

Oct 2024 – Feb 2025

- Supported month-end financial reporting and period-close activities, contributing to accurate, stakeholder-ready reporting packs.
- Delivered ratio analysis across liquidity, profitability, efficiency, and leverage, alongside trend analysis to inform management reviews and KPI tracking.
- Standardised calculation templates in Excel and documented methodologies in Word to improve consistency and reproducibility across reporting cycles.

PROJECTS

Salary Regression & Pay-Equity Analysis — Curtin University

Semester 2, 2025

- Analysed a university academic-staff salary dataset to assess potential sex-based pay disparities, performing exploratory analysis, outlier detection, and variable transformations in R.
- Built and compared simple and multiple linear regression (SLR/MLR) models, applying residual diagnostics and a predictive criterion to select the best-fitting model.
- Documented methodology and findings in a structured report; graded 45/50 (90%).

Optimal Stock Portfolio — Curtin University

Semester 1, 2025

- Built a reproducible R / RMarkdown workflow to ingest, clean, and analyse assigned equities, calculating returns, volatility, beta, and risk-adjusted metrics.
- Applied mean-variance optimisation to recommend a constrained two-stock portfolio, validating results through scenario and sensitivity analysis.

HOSPITALITY & CUSTOMER SERVICE EXPERIENCE

Front of House — Sik Geak Korean BBQ, Perth

2025

Front of House — Hanjip Korean Grill House, Singapore

2022 – 2023

- Delivered efficient, high-quality customer service in fast-paced, high-pressure environments while meeting quality and satisfaction standards.
- Followed operational procedures and food-safety guidelines to maintain compliance and workplace safety.
- Gained practical exposure to inventory control, product storage, and demand-based stock replenishment.
